(h) Teaching and learning in visiting professor roles

45. Intensive course, **GIS and geodemographic data infrastructures**, Ritsumeikan University, May 2007
46. Seminar, Urban Institute Ireland, University College Dublin, September 2008.

I have had full tutorial and pastoral responsibilities in all of my lecturing jobs (apart from undergraduate tutorials at UCL from 2003-6). At Cardiff and UCL, these responsibilities have also entailed supervision of research projects and dissertations at the undergraduate and postgraduate levels and, at Cardiff, supervision of postgraduate students during their office placements.

I was excused teaching duties (22) - (27) during the 1994-95 academic session and (37) – (38) during the 2003-4 academic session, under the terms of ESRC Research Fellowships, and (in part) in the first half of 2000 under academic study leave. Detailed evaluation questionnaires were used throughout my time in Bristol, and received very good responses, particularly bearing in mind the technical nature of much of the material that I taught. All lecture courses at UCL Geography are also evaluated on an annual cycle and are similarly well-received.

10. CONTRIBUTIONS TO DEPARTMENTAL AND UNIVERSITY ADMINISTRATION

(a) Reading, 1983-84

1. 1983-84 Convenor, Development Module
2. 1983-84 Member, Staff-Student Panel

(b) Cardiff, 1984-92

3. 1984-87 Research Seminar Series Co-ordinator

6. 1985-86 **Course Convenor, M.Sc Information Technology and Planning**
7. 1987-90 Member, Departmental Research Committee (Cardiff)
8. 1988-91 **Executive Director, Wales and South West Regional Research Laboratory.** See Section (8) for details of this major ESRC-funded initiative.
9. 1987-92 **Undergraduate Admissions Officer.** In the year before I was given this responsibility, the Department suffered a recruitment shortfall of seven students from its target quota of 30 students. In the last two years for which I was responsible, the Department succeeded in reaching revised intake targets of 62 and 56 respectively, with no deterioration in average 'A' level scores: these were also the only two years in the Department's then 26 year history when it proved unnecessary to enter UCCA's clearing system.
10. 1987-90 Organiser of at least one (week-long duration) field visit per year.

(c) Bristol, 1992-2000

11. 1992-7 Year 1 Coordinator, B.SocSci/B.Sc Geography
12. 1992-9 Member, Departmental Teaching Committee (apart from 1998)
13. 1992-9 Member, Departmental Library Committee
14. 1993-7 Social Science Faculty Information Officer.
15. 1993-4 **Course director, M.Sc Society and Space.** This course was developed jointly by the Geography Department and SAUS in 1992. It is presently heavily underpinned by Economic and Social Research Council-funded studentships and is seen as a key element in the further development of intra- and inter-Departmental graduate education in the Social Science Faculty. I acted as Course Director in its second year (after which I relinquished responsibility in order to take up an ESRC research fellowship).
16. 1995 Convenor, Departmental Working Group to establish an M.Sc degree in Geographical Information Systems.
17. 1996-9 School Alumni Officer.
18. 1998-2000 University Alumni Foundation Committee.

23. 2000- **Deputy Director**, Centre for Advanced Spatial Analysis.
24. 2000-1 Department Undergraduate Admissions Sub-Committee
25. 2001-2 Department Computer Users' Committee
26. 2003-5 **Director, UCL Chorley Institute.** This is a major interdisciplinary initiative that was selected from strong internal competition as a vehicle for investing SRIF2 monies. I was responsible for initiating the consultation that brought the multi-faculty interests together, and developing a sustainable business plan to oversee the development of the Institute.
27. 2005- **Site Director, Centre of Excellence in Teaching and Learning (CETL).** This is a major (c. £4.5m) HEFCE-funded centre with a focus upon **Spatial Literacy in Teaching**, and is a three way collaboration between the universities at Leicester, Nottingham and UCL. I wrote the UCL part of the bid: the spend allocated specifically to UCL is just over £1 million and I presently manage strategic and day-to-day running of the Centre under a 20% FEC buyout.
28. 2007 Member, Social and Historical Sciences Faculty Teaching Committee.
29. 2007 Convenor, week long course on 'GIS and geodemographic data infrastructures' whilst Visiting Professor, Ritsumeikan University, Japan.
